

# GRDC Grains Research Update

Crown Convention Centre (Crown Perth) Burswood  
February 27 & 28, 2017

## FREE WORKSHOP

AgVita Analytical proudly presents an informal workshop on the benefits and applications of **NU-Test** plant sap analysis in broadacre crops. NU-test is a rapid and accurate analytical tool used throughout the country in all major agricultural crop types and production systems.

Come along for complimentary **light breakfast & coffee** and hear from AgVita staff on the science behind this test, how results are generated, what is reported and then hear how industry experts use the information in a NU-test report to better manage broadacre crops in real time to achieve better yield & quality.

NU-test analysis provides information that can both *make* you money and *save* you money through higher yields and less inputs.

WHEN: Monday 27<sup>th</sup> Feb, 2017, from **7.30am sharp** to approx. 8.15am

WHERE: Trade Show, at the **AgVita Analytical** booth

COST: Free to attend – please RSVP for catering purposes to [dhicks@agvita.com.au](mailto:dhicks@agvita.com.au) or call us on (03) 6420 9600
